- Drought & Heat Tolerant
- Formulated for This Area

# Drought Buster Plus

**TURF-TYPE TALL FESCUE plus  
SELF-REPAIRING BLUEGRASS**

## Drought Buster Plus "Dwarf" Tall Fescue Blend Plus Self-Repairing Bluegrass

Drought Buster Plus is the same tall fescue blend as Drought Buster, but with ten percent of a heat tolerant, fungus resistant Kentucky Bluegrass. Bluegrass is a grass type that sends rhizomes beneath the surface to fill in gaps in the turf stand. These qualities combine to make a super tough turf that can withstand pets, high traffic, insects, and heat damage by having the ability fill in damaged areas quicker. You will get more reparability than a straight tall fescue blend. Now let's face it, some of the problems we encounter as turf managers or specifiers seem insurmountable. However, if we are smart and take advantage of solutions that are available, we can win the fight. Drought Buster Plus is one solution.

DATA SHEET  
Drought Buster  
Plus

### FEATURES

- Green Color
- Fine Texture
- Higher Density
- Heat & Drought Tolerance
- Deep root system (1.5 to 3.5 ft.)
- Great for Pets & High Traffic
