Amazing	5.0
lsd	1.6

A new star has risen among the varieties and blends for the golf course market: **Desert Star**®. Top-ranked varieties are blended to your quality specifications to satisfy your fall overseeding needs. **Desert Star**® is fast establishing, and will handle those fall weather woes of too hot or too cold.

The superior density of **Desert Star**® provides a very golfer-friendly turf. With smooth roll and little graininess, the fairways allow a good roll, with greens that are easier to read.
